**** All requests to be on the Planning Commission agenda must be received at the Middletown Municipal Center, 31 W. Main Street, Middletown by 12:00pm on the Monday two weeks prior to the monthly meeting held on the third Monday of each month. All plans being submitted for review must be folded, and an electronic plan is required as well.**

Maryland law and the Planning Commission's Rules of Procedure regarding ex parte communications require all discussion, review, and consideration of the Commission's business take place only during the Commission's consideration of the item at a scheduled meeting. Telephone calls and meetings with Commission members in advance of the meeting are not permitted. Written communications will be directed to appropriate staff members for response and included in briefing materials for all members of the Commission.

MIDDLETOWN PLANNING COMMISSION
31 West Main Street
Middletown, Maryland

Virtual Workshop **January 12, 2022**

The virtual workshop of the Middletown Planning Commission took place on Wednesday, January 12, 2022, at 7:00 p.m. via a Zoom meeting. Those present (quorum) were Commission Chairman Mark Carney, Commission Members Bob Miller, Chris Mills, Sean Mahar, Town Board Liaison Jean LaPadula, Alternate Eric Ware and Temporary Alternate Robert Wilkes. Others present in official capacity: Cindy Unangst (Staff Planner). Applicants present: Elkana Bar-Eitan and Chris Benjamin (Memorial Hall lighting plan); Justin Riggs and Bobby Riggs (Oak & Steel change of use).

JANUARY MONTHLY PLANNING COMMISSION WORKSHOP:

PLAN REVIEW

Memorial Hall lighting plan – Cindy gave the highlights of her staff report and reviewed the changes made from the last submission. There was discussion about what color the lighting would be and whether the fixtures were dark sky compliant, and motion activated. Commission members criticized the applicant about the fact that the photometric data on the plan was unreadable even when zooming in to 300% and asked for a clearer plan. There was also discussion about the proposed balcony lighting on the façade of the building and the need to provide elevation plans showing where the lighting would be located.

Oak and Steel Furniture store change of use plan – Cindy reviewed pertinent information from her staff report as well as further information from the Town Engineer. There was discussion about where the new signage would be located, location within the store of the coffee shop, and about the hours of operation. Cindy was asked by the Chair to provide aerial photos for the meeting showing the location of the business and the nearby parking lots.

ZONING - none

COMPREHENSIVE PLAN UPDATE

Chapter 8 Municipal Growth Element – There was brief discussion about the growth boundaries and the recently approved growth policies. More of the Municipal Growth Element will be available for discussion at the meeting.

MISCELLANEOUS

PC Rules of Procedure – Chairman Carney asked the members to review the procedures ahead of the meeting next Tuesday.

Bluebeam Software and FTP site – Members were asked by the Chair to verify that they can access the FTP site, and there was a brief discussion about the capabilities of the Bluebeam software.

Workshop adjourned at 8:15pm.

Respectfully submitted,
Cynthia K. Unangst

Middletown Staff Planner

MIDDLETOWN PLANNING COMMISSION
31 West Main Street
Middletown, Maryland

Regular Meeting **January 18, 2022**

The regular meeting of the Middletown Planning Commission took place on Tuesday, January 18, 2022 at 7:00 p.m. via a Zoom meeting. Those present (quorum) were Commission Chairman Mark Carney, Commission members Sean Mahar, Commissioner Jean LaPadula (Ex-officio), Chris Mills, Bob Miller, Eric Ware (Alternate), and Robert Wilkes (Temp Alternate). Others present in official capacity: Cindy Unangst (Staff Planner) and Patty Guyton (Recording Secretary). Applicants present: Chris Benjamin (Memorial Hall lighting plan); Bobby Riggs (Oak & Steel change of use).

JANUARY MONTHLY PLANNING COMMISSION MEETING:

I. PUBLIC COMMENT - None

II. MISCELLANEOUS – Elect Planning Commission Chairman and Vice Chairman for 2022

•**Planning Commission Chair** – The Staff Planner opened the floor to accept nominations for Chair of the Planning Commission for 2022. Commission member Miller nominated Mark Carney as Planning Commission Chair for 2022. Seconded by Commission member Mahar. There were no other nominations. Motion carried (5-0).

•**Planning Commission Vice Chair** – The Staff Planner opened the floor to accept nominations for Vice Chair of the Planning Commission for 2022. Commission Chairman Carney nominated Robert Miller as Planning Commission Vice Chair for 2022. Seconded by Commission member Mahar. There were no other nominations. Motion carried (5-0).

III. Minutes of the December 2021 Planning Commission Workshop – Approved as submitted.

Minutes of the December 2021 Planning Commission Meeting – Approved as submitted.

IV. PLAN REVIEW –

Memorial Hall Revised lighting plan – The proposal is an exterior lighting plan for an existing building to be developed with fifteen apartments and two commercial spaces located at 4 East Main Street, near the southeast corner of East Main Street and South Church Street.

1. **Lighting** - The proposed lighting now consists of two (previously three) Outdoor LED wall cylinder downlights on the east side of the building. The new proposed lights have lower luminous flux numbers and connected load wattages compared to the previously proposed lights. The proposed height of the fixtures is 8′ above grade. They are to be installed on either side of the parking entrance. The location of the light fixture to the south of the parking garage entrance remains the same as previously proposed; the location of the light fixture to the north of the parking garage entrance has been moved slightly to the south. The foot-candles are shown on the new plan that was submitted prior to the meeting and are more readable. According to the cut sheet, the Lithonia Lighting Outdoor LED Wall Cylinder Downlights are ideal for applications such as lighting walkways and stairways. The Lithonia Lighting selection for this project is the downlight model and uses 4000K color LED – Daylight Glow.

   The proposed lighting for the balconies is a black Westinghouse LED Wall Sconce with one per balcony. Staff understands from the applicant that the lights selected for the balconies will provide light at the floor

of the balconies, but none of that light will reach the ground. All lights are down directed and will not provide light more than six feet from the building.

2. **Compliance with footcandle requirements** – Due to the fact that the Memorial Hall property shared ingress and egress location and property line is directly adjacent to a residential property, it was previously thought that it could be difficult to comply with the requirement that light trespass from the originating property not exceed 0.5 footcandles at the property line. However, the applicant has revised the proposed lighting to show the photometric data numbers are not greater than 0.5 footcandles on the adjacent residential property due to the light intensity being lower and the location of the lighting being adjusted.

3. **Exterior elevations lighting review** – The revised lighting plan includes the proposed lighting for the balconies which is necessary for safety reasons. As indicated earlier, the lighting is designed to just light the balcony area with no trespass at ground level. The balcony lighting is proposed to be located 7-feet above the balconies, and the balconies on the second level are shown as 21-feet above grade.

There was discussion on whether the lights would be daylight sensitive. Chris Benjamin (Ellison & Benjamin Architecture) stated yes, the lights will be daylight sensitive except for the lights near the garage which will be motion sensitive for safety issues at night.

Action: Commission member Miller motioned to approve the Memorial Hall Lighting Plan. Seconded by Commission member Mills. Motion carried (5-0)

CHANGE OF USE PLAN FOR 1 WEST MAIN – Oak & Steel Designs Furniture shop - The proposal is change of use of existing building to include the addition of a small coffee brewing station and donut/pastries display case, along with additional signage. No new building square footage is proposed. The proposed use would be called "Brew 30".

1. **Proposed use** – The proposed use is for the addition of a small coffee and donut shop at the front of the furniture store. Per the Frederick County health department guidance, there will not be any restaurant-style seating in the coffee shop. The coffee and donuts/pastries will be carry-out only in keeping with a "low priority" food license through the health department. All food products will be made and prepackaged elsewhere, and coffee will be brewed on the typical commercial coffee pot system. The coffee shop will be open Mondays thru Wednesdays from 6am – 11am and Thursdays thru Sundays from 6am – 6pm (to coincide with the operating times of Oak & Steel). The applicant requests that their hours be extended under certain circumstances with permission from the Town of Middletown.

2. **Current use** – The current use of this building is a furniture and other accessories store on the first floor of 1 West Main Street. The furniture store is currently open 10am-6pm Thursdays thru Sundays.

3. **Parking** – Based on the square footage (Section 17.32.060), the eating establishment use requires one parking space per 90 square feet of gross floor area or three seats, whichever requirement is greater. The parking spaces needed for the coffee shop based on square footage (236 square feet) is 2.6 spaces. The parking spaces needed currently for the retail use for that square footage is 1.6 (one per 150 square feet). So, the additional parking needed would be just one space. There is limited parking available for the building, but the parking lot at the corner of East Green Street and North Church Street has been designated as a municipal parking lot. That lot is only a short walk from 1 West Main Street. Section 17.32.060 does allow the planning commission to waive or reduce the parking requirements in the town commercial district or any other instances based on a demonstrated hardship.

4. **Signage** – The applicant would like to add a back lit modern sign above the existing sign as well as one on the rear of the building above the rear entrance. The sign dimensions have not been provided. All signage will need to be approved by the zoning administrator.

5. **Site plans required for approval by planning commission** – The change of use application has been referred to the Planning Commission from the Zoning Administrator to review signage, additional parking requirements and the change in intensity of use since the proposed coffee shop is in addition to the existing furniture store.

6. **Property owner approval** – Staff received an email from property owner, Martha Pirrone, stating that her tenant, Justin Riggs, has her permission to include a coffee shop inside his store (Oak and Steel) located in the Arnett Building.

7. **Approval by Frederick County Health Department** – The applicant has submitted everything the Health Department requires. Two interior sinks will be added to the business space per guidance from the Health Department. The proposed plans have been approved by the County, and a pre-opening inspection will be needed.

8. **Approval by Town Engineer, Bruce Carbaugh** – The Health Department stated in their approval letter that the facility must contact the Town of Middletown for grease trap requirements. The Town Engineer in his review said he has no objection to approval. A statement that there will be no food ware washing and everything is to be disposable will need to be noted on the plan. He also stated that the approval is only for this business and does not transfer to subsequent businesses. The non-transferable statement will also need to be noted on the plan. The applicant sent staff an email stating that there will be no food ware washing and everything is to be disposable.

9. **Approval by Frederick County** - A change of use application will need to be filed with the Frederick County Permits department.

There was discussion on whether there is a need for a grease trap and per the Town Engineer and Frederick County, no grease trap is required due to no food ware washing and everything is to be disposable. Planning Commission members asked about the applicant requesting that their hours be extended under certain circumstances with permission from the Town of Middletown. Bobby Riggs (Oak & Steel Co-owner) stated that they would ask the Town's permission to extend their store hours for special events such as Christmas in the Valley, Heritage Days, etc.

Action: Commission member Mahar motioned to approve the Change of use of 1 West Main Street (Oat & Steel) as submitted with the Planning Commission waiving the one additional parking spot required for the new use and the understanding by the applicant that the change of use application will need to be filed with and approved by the Frederick County Permits department. Seconded by Commissioner LaPadula. Motion carried (5-0)

V. ZONING – none

VI. COMPREHENSIVE PLAN UPDATE

Chapter 8 Municipal Growth Element – Staff stated that information was added from discussion from the workshop. There was discussion on the Middletown 20-Year Land Use Comprehensive Plan map and if the Coblentz property should be labeled Medium Density Residential, R20 or R30. Planning Commission members stated that it should not be labeled "Medium Density Residential" due to the fact that there are houses already in this area but are not shown on the map. Staff will contact GIS Specialist to add these houses to the map. Staff will discuss future changes to this chapter with the Town Board and Planning Commission at the next Joint Meeting on February 7, 2022.

VII. MISCELLANEOUS

PC Rules of Procedure – Chairman Carney reviewed the changes that were made in September 2021. Planning Commission members and staff made some suggestions on adding the word Frederick ahead of references to 'county' in paragraph two of the Objective on page 1, adding the meeting date change for January in Section 3.1 and adding information about virtual meetings in Section 4.5. Staff will make the changes and bring back to the Planning Commission at the February meeting.

Bluebeam Software/ FTP Site - The Town Administrator set up an account through Bluebeam Software and added a FTP Site for the Planning Commission members to have access to downloaded plans and files. Some Planning Commission members stated they cannot access the Bluebeam Software. Chairman Carney will investigate why these issues are happening and help members access the site.

VIII. Additional Public Comment – none

Meeting adjourned at 8:13PM.

Respectfully submitted,

Patty Guyton
Recording Secretary

ORDINANCE NO. 22-01-02

AN ORDINANCE TO AMEND TITLE 17 TO ADD A NEW SECTION 17.32.165 ON FENCES.

SECTION I. BE IT ORDAINED AND ENACTED by the Burgess and Commissioners of Middletown that Title 17, Chapter 32.165 of the Middletown Municipal Code be, and hereby is added as shown below. New language is designated by being in **BOLD CAPITAL LETTERS**.

Title 17 - ZONING

Chapter 17.32

17.32.165 FENCES

ALLOWABLE PROJECTIONS OF FENCES INTO YARDS. EXCEPT AS MAY BEAUTHORIZED BY SPECIAL EXCEPTION, AS FOUND IN SECTION 17.48.360 OF TOWN CODE, FENCES MAY BE CONSTRUCTED IN OR PROJECT INTO YARDS PROVIDING THAT A ZONING CERTIFICATE, AS REQUIRED BY THE TOWN, IS ISSUED.

(1) FRONT YARD REGULATIONS.

A. NO FENCES MORE THAN THREE FEET HIGH MAY BE LOCATED CLOSER TO THE FRONT OF THE LOT THAN THE PRINCIPAL BUILDING; SEE DIAGRAM # 2 AND 4

B. ANY FENCE ERECTED IN A FRONT YARD SHALL BE PLACED AT LEAST FIVE FEET BACK FROM THE CURB LINE, SIDEWALK OR ANY PROPOSED SIDEWALK AND/OR PROPERTY LINE.

C. ANY FENCE ERECTED IN THE FRONT YARD MUST BE SPLIT RAIL, WROUGHT IRON, PICKET OR OTHER TRANSPARENT FENCES OF A SIMILAR NATURE. NO CHAIN LINK FENCES OR SIMILAR FENCES ALLOWED.

(2) SIDE AND REAR YARD REGULATIONS.

A. NO FENCE MORE THAN SIX FEET HIGH, EXCEPT AS MAY BE AUTHORIZED BY SPECIAL EXCEPTION, AS FOUND IN SECTION 17.48.360 OF TOWN CODE, SHALL BE ALLOWED ON ANY OTHER PART OF A RESIDENTIAL LOT. FENCES MAY BE OPEN OR SOLID STYLE CONSTRUCTION.

B. FENCES SHALL NOT BE CONSTRUCTED IN A MANNER WHICH WOULD CREATE UNMAINTAINABLE AREAS OR HAZARDOUS CONDITIONS.

C. ANY FENCE ERECTED IN THE SIDE OR REAR YARD MAY BE PLACED UP TO THE PROPERTY LINE.

D. FENCES IN EXCESS OF SIX FEET IN HEIGHT IN COMMERCIAL AND INDUSTRIAL DISTRICTS AND FOR NONCONFORMING BUSINESSES MAY BE APPROVED BY THE PLANNING COMMISSION SUBJECT TO REVIEW OF THE

FENCE MATERIAL DURING SITE PLAN REVIEW. SEE STANDARD LOT DIAGRAMS BELOW.

(3) CORNER LOTS.

A. NO FENCES MORE THAN THREE FEET HIGH MAY BE LOCATED IN FRONT YARD #1, BETWEEN THE CURB LINE, SIDEWALK, OR PROPOSED SIDEWALK AND THE FRONT CORNER OF THE PRINCIPAL DWELLING.

SEE DIAGRAM # 4

B. NO FENCES MORE THAN 54 INCHES HIGH MAY BE LOCATED, IN FRONT YARD #2, BEHIND THE FRONT CORNER OF THE HOUSE AND THE REAR PROPERTY LINE. SEE DIAGRAM # 4

C. ANY FENCE ERECTED IN A FRONT YARD SHALL BE PLACED AT LEAST FIVE FEET BACK FROM THE CURB LINE, SIDEWALK OR ANY PROPOSED SIDEWALK AND/OR PROPERTY LINE.

D. ALL CORNER LOTS ADJACENT TO A PUBLIC STREET SHALL ALSO BE CONSIDERED FRONT YARDS. A CORNER LOT MUST COMPLY WITH THE FRONT YARD REGULATIONS FOR FRONT YARDS ON EACH PROPERTY LINE/YARD WHICH IS ADJACENT TO A PUBLIC STREET.

E. ON EVERY CORNER LOT ABUTTING THE INTERSECTION OF TWO STREETS, A TRIANGULAR AREA WITHIN THE LOT SHALL REMAIN CLEAR OF ANY STRUCTURE, WALL, FENCES, PLANTING OR OTHER VISUAL OBSTRUCTION WHICH MIGHT CAUSE DANGER TO TRAFFIC BY OBSCURING THE VIEW;

F. SUCH TRIANGULAR AREA SHALL BE DELINEATED BY A LINE DRAWN ACROSS THE LOT TO CONNECT POINTS ON THE TWO STREET LINES AT A DISTANCE OF 35 FEET FROM THE INTERSECTION OF THE STREET LINES.

SECTION II. BE IT ORDAINED AND ENACTED by the Burgess and Commissioners of Middletown that Title 17, Chapter 32.170 of the Middletown Municipal Code be, and hereby is amended as shown below. Language being deleted is designated by being ~~[in brackets and stricken through]~~. New language is designated by being in **BOLD CAPITAL LETTERS.**

SECTION III. BE IT FURTHER ENACTED AND ORDAINED that this Ordinance shall take effect twenty (20) calendar days following its approval by the Burgess and Commissioners.

INTRODUCED ON THE 24th DAY OF January ,2022

PASSED ON THE 14th DAY OF February, 2022

EFFECTIVE DATE: March 6, 2022

Chapter 17.36 - SIGNS[1]

17.36.010 - Purpose and intent.

It is the purpose of this Section to promote the public health, safety and general welfare of the Town through reasonable, consistent and non-discriminatory sign standards. Much valuable information can be and is conveyed by the signs of local retail and service establishments to the mutual benefit of both the business establishments and the public. It is the policy of the burgess and board of commissioners and the intent of this chapter to promote signs which are compatible with the landscape/streetscape and architecture of surrounding buildings, which are not distracting to motorists, which are constructed and maintained in a structurally sound and attractive condition, and which are consistent with the terms and conditions of the regulations set forth in this chapter.

17.36.020 - Definitions.

"A-frame/sandwich board/T-frame sign." A sign that is constructed in the shape of an "A", also referred to as a "sandwich board" sign, or an upside-down "T" and which is composed of two back to back sign faces oriented in opposing directions aligned in the shape of the letter "A" or an upside-down "T" and which is generally used to identify goods and services available at the business establishment or other entity displaying or sponsoring the sign.

"Awning/canopy sign." a sign placed directly on or attached to the surface of an awning or canopy.

~~"Barber pole." A traditional symbol used to identify the place of business of a barber. For purposes of this ordinance, a barber pole is not considered to be an animated, moving or illuminated sign, but a traditional symbol of a service profession.~~

"Building frontage." The architecturally designed front of a building on a public street, parking lot, or pedestrian walk. In the case of a building located on the corner of two rights-of-way, and where the primary entrance is located on the corner of the building, the "building frontage" is the longer of the two sides which front along the rights-of-way.

"Directional sign." A secondary or incidental sign designed to guide vehicular and/or pedestrian traffic by using such words as "entrance," "exit," "parking," or similar directional instruction. The name or logo of the business or use to which the sign is giving direction may also be included on the sign. (?)

"Directory sign." A sign on which the names and locations of occupants within a building or property is identified.

"Freestanding sign." Any sign mounted on supports that are placed on, or anchored in, the ground and that are independent from any building or other structure.

~~"Garage/yard sale sign." A temporary sign advertising private sales of personal property within the town limits (such as garage sales or rummage sales).~~

"Grade plane." Grade plane means a reference plane representing the average of finished ground level adjoining the sign structure.

"Illuminated sign." a sign which is illuminated in any manner by an artificial light source, whether internally or externally lit.

"Incidental sign." A sign, generally informational, that has an incidental purpose to the use of the lot on which it is located, such as "No Parking," "Entrance," "Exit," "Loading Only," and other similar directives. These signs shall include, but not be limited to signs on automatic teller machines, gas pumps, vending machines or newspaper delivery boxes. (?)

"Lot frontage." The length of the property abutting a street right-of-way, measured as a straight line between the extreme property corners along a street right-of-way.

"Monument sign." A freestanding sign attached to a contiguous structural base or berm, which base shall be of the same width as or greater than the message portion of the sign, and is permanently affixed to the ground.

~~"Political sign." A political sign is a temporary sign for a legally recognized election at the municipal, county, state or federal level or for special elections or districts.~~

"Projecting sign." Any sign that is wholly or partly dependent upon a building for support and which projects more than twelve (12) inches from the building; angle of projection shall be 90° from the building.

"Roof line." The top of a flat roof or the ridge of a gable, hip or gambrel roof.

"Sandwich board sign." See A-frame sign.

"Temporary sign." Any sign or banner which has for its purpose the advertising, announcement or display of information pertaining to an event, condition or situation that is intended to be limited in scope, duration of time not to exceed forty-five (45) days, including, but not limited to, commercial sales events, concerts, plays and other commercial or cultural events.

"Wall sign." Any sign attached to any part of a building and which does not project more than twelve (12) inches from such building.

"Window sign." Any permanent sign, pictures, symbol, or combinations thereof, designed to communicate information about the business that is placed inside a window or upon the window panes or glass and is visible through the window.

17.36.030 - General sign standards.

All signs which are painted, constructed, erected, remodeled, relocated or expanded shall comply with the following standards:

A. Illuminated Signs. Signs which are illuminated shall be shaded so as to avoid casting bright light upon any property which is located in any residential district or upon any public street. Any illuminated sign which is facing any residential district and which is visible from such residential district, shall only be illuminated when the business is open for business or to the public. For the purposes of this section, the term "illuminated sign" shall include, but not be limited to, illuminated window signs.

B. Flashing or Moving Signs. No flashing sign, rotating or moving sign, animated sign or sign with moving lights or lights which create the illusion of movement are permitted. A sign on which the current time and/or temperature is indicated by intermittent lighting shall not be deemed a flashing sign if the lighting changes are limited to the numerals indicating the time and/or temperature. For the purposes of this article, the term "flashing, rotating, animated or moving signs" shall include, but not be limited to, flashing, rotating, animated or moving window signs.

C. Determination of Sign Height. The height of a sign shall be measured from grade plane to the average height of the highest sign surface. If a sign is located on a mound, berm, or other raised area for the purpose of increasing the height of the sign, the height of the mound, berm, or other raised area shall be included in the height of the sign.

D. Measurement of Sign Area. Each face of a sign shall be counted when computing the total sign area for a site except that, when two sign faces are placed back to back so that both faces cannot be viewed from any point at the same time and each contains identical text and graphics, the area of only one side shall be counted when computing the area of that sign.

E. Number of Sign Faces. No sign shall have more than two (2) sign faces.

F. Determination of Monument Sign Area. The surface area of the largest face of a monument sign will be used to determine the total square footage of the monument sign. This calculation will exclude the first eighteen (18") inches of the base if it does not include any sign copy or other

graphic. In addition, a planter structure which does not exceed one foot (1') in height or include sign copy or graphics will also be excluded from the area calculation.

G. Condition of Signs. All signs shall be designed, constructed and installed with permanent materials and finishes (except for temporary signs) and ~~its component parts which are authorized by this chapter~~ shall be maintained in good repair and in a safe, clean and attractive condition. Signs shall not be maintained or permitted to exist in such a condition as to constitute a public nuisance or other hazard to the public health, safety or welfare. In addition to any other lessee, owner or other person responsible for a sign, the owner of the property on which a sign is located shall also be responsible for the maintenance of the sign as required herein.

H. Unless otherwise permitted by law, all signs shall be erected, installed or otherwise located on the property which is used for the purposes which are associated with or which relate to the content of the sign. Sign applicants must have approval of property owner. Each sign shall be located within the owner's property boundaries and shall not be located within the public right-of-way.

17.36.040 - Signs permitted in any districts.

The following signs are permitted in all~~any~~ zoning districts subject to the provisions and requirements of this chapter:

A. A personal service sign for ~~professional office or~~ a home occupation use subject to the following. Such signs shall be either unlighted or indirectly lighted, shall not exceed eight~~two~~ (8~~2~~) square feet in area~~size~~, and shall be attached to the building in which the ~~professional office or~~ home occupation use is operating.

B. ~~A sign identifying the use of the property on which it is located as a nonprofit organization, which contains no commercial advertising, and which does not exceed sixteen (16) square feet in size.~~

C. ~~One bulletin board-style sign on property used for churches and other places of worship and on school or college property provided that such signs shall not exceed thirty-two (32) square feet in size.~~

D. Signs ~~not exceeding six (6) square feet in size~~ which are directional, informational, or warning in character, that are necessary for the proper navigation, safety, functionality and well-being of patrons, guests or visitors ~~and which contain no advertising~~.

17.36.050 - Signs for individual businesses.

A single business located on one lot may erect signs subject to the following:

A. Each business may have a maximum number of three (3) signs for each street or public right-of-way on which the property fronts.

B. Types of signs permitted. Wall, monument, projecting, window, or canopy/awning.

C. Maximum size of signs. See design standards for sign type.

17.36.060 - Signs for multiple businesses other than shopping centers.

Where there are multiple (more than one) businesses located on a single lot, other than a shopping center, signs may be erected and installed on the lot subject to the following:

A. No lot shall be permitted to have erected both a projecting sign and a monument sign or more than one monument sign.

B. Each business on the lot shall be entitled to a maximum of two (2) signs per business.

C. Wall, projecting, window, or canopy/awning signs shall be permitted.

D. The maximum size of each sign shall be in accordance with the design standards set forth in this chapter.

E. One wall mounted directory sign for each wall of a building on which wall there is one or more entrances to a business, up to twelve~~sixteen~~ (12~~16~~) square feet in area. Identification of a business on the directory sign will not be included with the number of signs permitted in subsection B. above.

F. Directional signs are permitted, shall not exceed twelve (12) square feet in size, and shall be consistent in construction and appearance with the materials used on the building(s) on the premises.

17.36.070 - Signs for commercial shopping, office and industrial centers.

A. An identification sign for a commercial shopping center, office or industrial park or other integrated group of commercial buildings shall not exceed one hundred twenty (120) square feet in size, shall be subject to the setback requirements for the district in which it is located, and shall comply with any other restrictions applicable thereto within its individual zoning district.

B. Commercial shopping, office or industrial centers or parks which are five (5) acres in size or greater and which have been planned as an integrated development may erect signs subject to the following:

1. Signs for Individual Establishments Within Center. Same as for individual or multiple businesses, as applicable, provided that no monument signs shall be permitted for individual businesses in the principal building of a shopping center. One monument sign may be erected for each detached principal building within an office or industrial center. No such sign shall exceed fifty (50) square feet in area or eight (8) feet in height.

2. Shopping Center Identification Sign and Courtesy Signs. Same as for individual or multiple businesses, as applicable, provided that no monument signs shall be permitted for individual businesses in the principal building of a shopping center. One monument sign with an area of one square foot per five (5) linear feet of lot frontage on which the sign is to be erected, up to a maximum of one hundred twenty (120) square feet and a maximum height of eight (8) feet. Only the name and address of the center and the names of establishments shall be displayed. In addition, shopping center courtesy signs are permitted, one (1) sign at each entrance/exit only, located at least five (5) feet from the public right-of-way. Each sign is restricted to no more than three (3) square feet in area and three (3) feet in height. No advertisements or phone numbers are permitted on courtesy signs.

3. Office or Industrial Signs. One monument sign at each major entrance of an office or industrial center identifying the name of the center only. No such sign shall exceed fifty (50) square feet in area or eight (8) feet in height.

4. Directional signs are permitted, shall not exceed twelve (12) square feet in size, and shall be consistent in construction and appearance with the materials used on the building(s) on the premises.

17.36.080 - Signs for motor vehicle service stations.

Motor vehicle service stations may erect signs as follows:

A. Maximum Number of Signs. A motor vehicle service station may display a total of three (3) signs excluding signs which, by law, are required to be displayed.

B. Types of Signs Permitted. Wall, canopy/awning, window or monument signs are permitted for a motor vehicle service station.

C. Maximum Size of Signs. The maximum size of a sign shall be the same as that for individual businesses; provided, however, that signs which are required by law to be displayed may be of the minimum size required in order to comply with the applicable law.

D. Location. A monument sign shall not be positioned or located in such a manner as to obstruct or otherwise interfere with the sight of motorists or pedestrians and their ability to safely enter or exit the premises.

17.36.090 - Subdivision and community identification signs.

Subdivision and community identification signs are permitted in the right-of-way of monumented, public streets or in locations approved by the Middletown Planning Commission. In addition, the following conditions shall be met:

A. Signs shall not be positioned or located in such a manner as to obstruct or otherwise interfere with the sight of motorists or pedestrians and their ability to safely enter or exit the premises or traverse the rights-of-way nor shall they be located within utility easements or in a location which will adversely impact utility lines; the planning commission shall have the authority to approve the location and orientation of the sign;

B. The sign shall be of a permanent nature, such as brick, stone or concrete, and shall be kept in good repair and in safe, neat, clean and attractive condition by the community association, if existing;

C. If a sign is located in a median strip or monumented island, no portion of the sign may be located within ten (10) feet of any end of the median strip or monumented island;

D. Subdivision and community identification signs shall not exceed seventy (70) square feet in size, four (4) feet in height, and shall be subject to any other restrictions within individual zones.

17.36.100 - Design standards for permitted sign types.

All new signs and all existing signs which are replaced, reconstructed, extended or changed structurally shall comply with the following development standards.

A. Freestanding Sign—Design Standards.

1. Road Frontage Requirements. Monument signs shall be permitted only on lots with one hundred (100) feet or more of road frontage, with one sign per road frontage for corner lots.

2. Minimum Separation Distance. No monument sign shall be permitted to be erected within seventy-five (75) feet of an existing monument sign.

3. Maximum Height. Eight (8) feet, Except that in residential districts freestanding signs shall not exceed a maximum of four (4) feet in height.

4. Maximum Size. One (1) square foot per five (5) linear feet of street frontage, up to a maximum size of fifty (50) square feet, except that in residential districts freestanding signs shall not exceed a maximum of 32 square feet.

5. Freestanding signs in the town commercial (TC), general commercial (GC), mixed business (MB), and service commercial/light manufacturing (SC/LM) districts shall have a

minimum setback of ten (10) feet from any public right-of-way, service drive or entrance and shall be so located as to allow clear and ample visual sight lines for driveways leading into a street and at intersecting streets and alleys.

B. Projecting Sign—Design Standards.

1. A projecting sign may project no more than four feet (4') from the building from which it projects.

2. A projecting sign shall be located at least seven and one-half feet (7'6") above the surface of the ground, may not exceed a height of fourteen feet (14'), and may not extend above the highest point of the roof.

3. Maximum Size. One (1) square foot per linear foot of building frontage on which the sign is to be attached, up to twelve (12) square feet.

4. For a lot located on the corner of two roads or rights-of-way, one projecting sign shall be permitted for each road or right-of-way frontage.

C. Wall Sign—Design Standards.

1. A wall sign may not exceed a height of twenty-five (25) feet, may not extend above the highest point of the roof, and may not project beyond twelve (12) inches from the wall on which it is installed.

2. The maximum size of a wall sign shall be based upon the length by linear foot of the front of the building on which it is installed. A wall sign may not exceed one (1) square foot for each linear foot of building frontage on which the sign is installed, and no sign shall exceed one hundred (100) square feet regardless of the length of the building frontage.

3. One wall sign shall be permitted on each side of a building which fronts upon a road, street or other public right-of-way.

D. Awning and Canopy Signs—Design Standards.

1. Location. The lettering, graphics or other sign content on an awning or canopy shall be placed parallel to and shall not project above or below the face of the awning or canopy.

2. Limit on Projection. An awning or canopy with a sign shall not extend beyond the vertical line measured one (1) foot in from the edge of the sidewalk or right-of-way curb and shall not be situated in a location which interferes with or obstructs pedestrian or vehicular traffic.

3. Maximum Size. One square foot per linear foot of the awning or canopy, up to a maximum twelve (12) square feet. Sign area shall be counted as part of the total allowable area for signs.

E. Permanent Window Sign—Design Standards. The maximum area for a window sign, as determined by measuring the width and height of the outermost edges of the sign lettering or graphics shall not exceed twenty-five percent (25%) of the entire window area or sixteen (16) square feet, whichever is less.

17.36.120 - Pre-existing non-conforming signs and historic signs.

A. Any sign which was lawfully established in accordance with all applicable regulations in effect at the time of its establishment but which does not conform to the requirements set forth in this chapter shall be deemed a lawful non-conforming sign.

B. A lawful non-conforming sign may lawfully remain at its location, subject to the following conditions:

1. Lawful non-conforming signs shall be maintained in good repair and condition. Any such sign which is determined by the town zoning administrator, town administrator or other authorized

town official not to be so maintained or to be unsafe shall be restored, repaired, rebuilt, or removed.

2. Except as otherwise provided herein, lawful non-conforming signs may not be enlarged, extended, relocated structurally altered, or changed in nature or character.

3. The wording and content of a lawful non-conforming sign may be changed to accommodate and reflect a change in use of the property from one business to a similar business occupying the same property.

4. A lawful non-conforming sign shall either be removed or altered to comply with the requirements of this chapter when there is a substantial change in the use of the property on which the sign is located, when there is a substantial alteration to the primary structure on the property on which the sign is located or when there is a change in nature or character of the sign.

C. The owner of or other person responsible for a lawful non-conforming sign which sign is in violation of any of the conditions set forth in this section shall correct such violation or remove such sign within ninety (90) days of being given notice of the violation.

D. Historic Signs. The burgess and board of commissioners may designate individual signs at its discretion as historic signs. Historic signs shall be exempt from the provisions of this chapter subject to the following conditions:

1. Historic signs shall be kept in good repair and condition. Any such sign which is determined by the town zoning administrator, town administrator or other authorized town official not to be so maintained or to be unsafe shall be restored, repaired, rebuilt, or removed.

2. Historic signs may not be enlarged, extended, relocated or structurally altered.

3. Historic signs may not be displayed on any other portion of the property or building other than its location on the date of the enactment of the ordinance codified in this chapter, and may not be displayed on another property.

17.36.130 - Sign permit procedures.

A. Except as otherwise provided in this chapter, all signs being erected, constructed, installed, attached, altered, relocated or reconstructed must be approved prior thereto by the zoning administrator or its delegate for compliance with the provisions of this chapter including the location, placement and size of the sign.

B. Except as otherwise provided in this chapter, a sign permit shall be required for all signs erected or installed after the effective date of this ordinance.

C. An application for a sign permit shall be submitted on a form provided by the zoning administrator, shall contain the information required as set forth herein, and shall be accompanied by the required application fee.

D. An application for a sign permit shall contain, or have attached thereto, the following information in either written or graphic form:

1. Name, address and telephone number of the sign erector and the sign owner.

2. A site location plan showing the street name and street number of the location or building where the sign is to be placed and the position of the sign in relation to adjacent lot lines, buildings, sidewalks, streets and intersections.

3. The type of sign and a general description of the structural design and construction materials to be used.

4. One set of drawings and/or photos of the proposed sign which shall contain specifications indicating the height, perimeter and area dimensions, means of support, method of illumination, colors, and any other significant aspect of the proposed sign.

5. Any other information requested in order to carry out the purpose and intent of this chapter.

E. A signage plan identifying the location, height, and size of all freestanding signs shall be included on all site plans reviewed by the planning commission.

F. Any sign which is erected, constructed, installed, attached, altered, relocated or reconstructed without a permit and for which a permit is required shall be deemed a violation of this chapter and the owner or other person responsible for the sign shall be subject to a fine and enforcement measures as provided for in Chapter 17.08 of this title. In addition, the zoning administrator may order the owner or other person responsible for the sign to remove the sign at the sole cost of such person.

G. Upon a showing that an owner, lessee or other person seeking to display a sign is unable to effectively display one or more signs in compliance with the requirements of this chapter due to unusual conditions on the property such as size, location, topography or other situation, the zoning administrator may issue a sign permit authorizing the displaying of a sign not in strict compliance with the requirements of this chapter if, in doing so, the intent of this chapter may still be met.

17.36.140 - Exempt signs.

A sign permit shall not be required for the following signs; provided, however, that all such signs shall comply with the other applicable requirements of this chapter:

A. Any public notice or warning required by a valid and applicable federal, state, or local law, regulation or ordinance;

B. Signs erected by the town, county, state, or federal government in furtherance of their governmental responsibility;

C. Signs prepared by or for the local, state or federal government marking sites or buildings of historical significance;

D. Directional and Incidental signs as defined herein;

E. Ballfield/sports complex signs and scoreboards.

F. Government sponsored banners affixed to light standards promoting community events.

G. Gasoline Price Signs as Required by Maryland Law: Maryland Law requires the price of gasoline be posted on properties where it is sold and sets minimum standards for such posting. Signs posting the price of gasoline shall not be included in the calculation of permitted sign area up to a minimum required by State Law. That which exceeds the minimum required by State Law shall be included in the calculation of sign area.

17.36.150 - Temporary signs.

A. Temporary ~~commercial advertising~~ signs of any size are not permitted in any district unless they comply with the requirements of this chapter, and such signs are deemed to be and shall constitute a public nuisance. The town may immediately remove any such sign(s), without prior notice to the owner or other responsible person(s). The erection or installation of such signs shall be deemed a violation of this chapter and the owner or other person responsible for the sign shall be subject to a fine and enforcement measures as provided for in this chapter. Temporary signs, such as but not limited to vinyl banners, shall not be used as permanent or ongoing principal signs.

Temporary signs shall not exceed eight square feet in area, and shall not exceed four feet in height from the ground. No more than one temporary sign per lot of record shall be permitted.

B. A permit is not required for the following types of temporary signs:

1. A temporary real estate sign advertising the sale or lease of the property on which the sign is displayed. ~~For residential property, the sign shall not exceed six (6) square feet in size. For commercial and industrial property, the sign shall not exceed thirty-two (32) square feet in size.~~

2. Signs advertising subdivision openings, open houses or other real estate events being held within the town limits. ~~Such signs may not exceed four (4) square feet in size per sign, and such sign(s) may only be displayed between the Friday before the event after 12:00 noon and 8:00 a.m. on the following Monday morning after the event. In the event that the Monday is a legal holiday, the sign must be removed by 8:00 a.m. on the following Tuesday morning. In the event that Friday is a legal holiday, the sign may be placed on the Thursday before the event after 12:00 noon.~~

3. ~~Temporary and seasonal produce stand signs. Such signs shall not exceed twenty-four (24) square feet in size and no such sign shall exceed six (6) feet in height.~~

4. ~~Construction signs. Such signs may only be installed after the issuance of a zoning permit, may not exceed one sign per street frontage, may not exceed six (6) feet in height and may not exceed twenty-four (24) square feet in size. A construction sign shall be removed prior to the issuance of a certificate of occupancy.~~

5. ~~Contractor/artisan job site sign. Such signs shall not exceed six (6) square feet in size, shall be installed only on the property at which the work is being performed and shall be removed upon completion of the job or construction.~~

6. ~~Temporary non-profit signs advertising events, activities, recruiting or fundraising efforts by community service groups, religious groups, children's or youth organizations, or student organizations. Such signs shall not exceed twenty-four (24) square feet in size and six (6) feet in height, and shall be removed upon completion of the effort being advertised.~~

7. ~~Political signs shall not exceed six (6) square feet in size.~~

8. ~~Garage/yard sale signs shall not exceed six (6) square feet in size. Such signs may be displayed only one day prior to the sale and must be removed within one day after the sale;~~

9. A-frame/sandwich board/T-frame signs which are placed in front of or adjacent to a business establishment for the announcement of daily specials or featured promotions ~~provided that the following conditions are met:~~

~~a. The sign is situated on the same property as the business which it is advertising;~~

~~b. The sign is only displayed during the business hours of the establishment and is removed and stored within the principal or covered accessory building of the establishment during non-business hours;~~

~~c. The sign is not placed in a location that impedes vehicular or pedestrian traffic, impedes access to parking or obstructs the sightlines of either;~~

~~d. The sign is not fastened to or erected on a sign pole;~~

~~e. The sign is only placed at grade and is not elevated or suspended above grade and does not protrude or project from any other structure;~~

~~f. The placement of the sign complies with the setback requirements of its respective zoning district;~~

~~g. The sign is no greater than thirty (30) inches wide and forty-eight (48) inches high in size.~~

C. A permit is required for the following types of temporary signs:

1. Temporary Residential Subdivision Signs. A temporary real estate sign advertising a subdivision within which the sign is located ~~not exceeding seventy (70) square feet in size and located no closer than twenty-five (25) feet to the property line~~. Temporary shall be until construction is complete.

2. Special Event Sign. A temporary sign noting an event of general interest, such as a locally sponsored carnival or grand openings. Such signs shall be removed within five days after the conclusion of the event. ~~A permit shall be valid for a period of no longer than ninety (90) days from the date of issuance. Such signs shall not exceed thirty-two (32) square feet in size.~~

3. Temporary Business Identification. A temporary sign which identifies the opening or existence of a new business. ~~Such signs shall not exceed twenty-four (24) square feet in size and shall be valid for a period of no longer than two months from the date of issuance.~~

4. ~~[A-Frame/Sandwich Board/T-Frame Signs.] A-frame/sandwich board/T-frame signs which are placed at a location other than the property location of the business sponsoring the sign and which announces daily specials, featured promotions, or the location of the business. the issuance and holding of a permit for such signs is subject to the following conditions being met:~~

~~a. The sign is situated in a TC town commercial district or a GC general commercial district and is situated within a one thousand five hundred (1,500) feet radius of the business which it is advertising;~~

~~b. Only one sign is permitted for any one street;~~

~~c. Only two off-site signs are permitted for any one business establishment;~~

~~d. The individual, owner, or other person or entity sponsoring the sign must provide to the town written authorization from the property owner permitting the placement of the sign on the owner's property;~~

~~e. The sign is only displayed during the business hours of the establishment sponsoring the sign, after which hours the sign must be removed;~~

~~f. The sign is not placed within any public right-of-way and is not placed in a location that impedes vehicular or pedestrian traffic, impedes access to parking or obstructs the sightlines of either;~~

~~g. The sign is not fastened to or erected on a sign pole;~~

~~h. The sign is only placed at grade and is not elevated or suspended above grade and does not protrude or project from any other structure;~~

~~i. The placement of the sign complies with the setback requirements of its respective zoning district;~~

~~j. The sign is no greater than thirty (30) inches wide and forty-eight (48) inches high in size.~~

D. Signs shall not be mounted on any type of utility pole or pole used to display or support traffic control signs or devices.

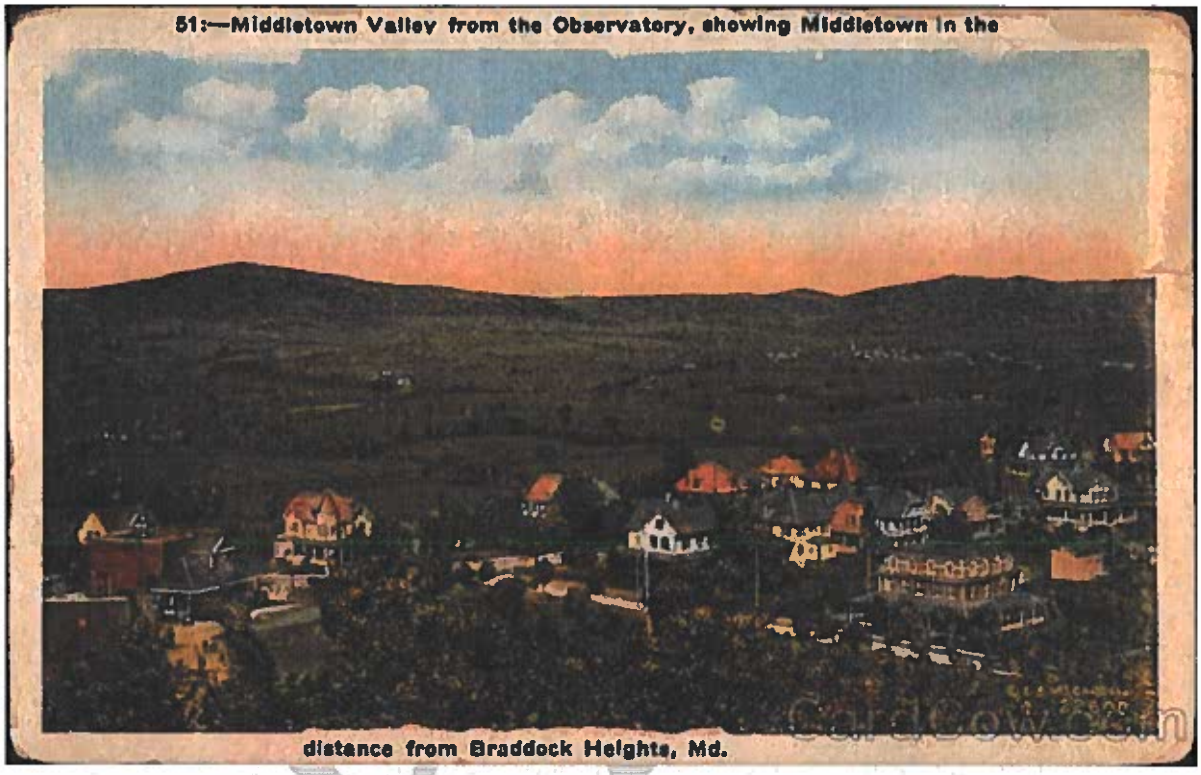
E. A sign shall be removed when the circumstances leading to its erection no longer apply.

17.36.160 - Removal of signs.

Any sign which advertises, identifies, or is otherwise related to or associated with a business, group, event or activity which is no longer in existence or active shall, within ninety (90) days from the time such business, group, event or activity ceases, either be removed from the premises or altered or resurfaced by the owner of the property on which the sign is located so that the sign will not display letters, numerals, symbols, figures, designs or any other device for visual communications pertaining to the former business, group, event or activity. Upon petition of the owner of the property on which the sign is located, the zoning administrator may, but is not required to, permit such sign to remain on the premises for an additional ninety (90) days.

Chapter 8

MUNICIPAL GROWTH ELEMENT



Introduction

The purpose of the "Municipal Growth Element" is to examine the interrelationships among land use, population and housing growth, and their impacts on public facilities and services. In this regard, Middletown Town officials will have a stronger basis for setting land use and growth management policies in the future through a better understanding of the multi-dimensional implications of change.

This chapter presents analyses of land consumption and facilities impacts that can be expected as a result of the projected growth of the town's population from 4,943 in 2020 to Maryland Department of Planning's projections of _____ in the year 2030. The growing population will require the identification and development of additional

water resources, and could impact existing surface water features such as Hollow Creek and Wiles Branch. Additional development will also require an increase in school capacity and wastewater capacity.

Municipal Growth Goals:

1. **Manage the rate of infill growth to be consistent with the provision of adequate services and infrastructure.**
2. **Manage the rate of growth by annexation to be consistent with the provision of adequate services and infrastructure.**
3. **Maintain the historical rural community nature of the Town.**
4. **Continue to provide a sustainable quality of life for residents of the Town.**

Executive Summary

In order to meet the municipal growth goals above:

1. The Town will ensure that development is orderly and utilizes good design techniques. Consideration will be given to the impact of growth on the existing community and facilities.

2. The scale of development shall be compatible with adjoining land uses. This shall include identification of the uniqueness of existing adjoining development.

3. Development will be allowed only where it can be served adequately by public facilities and roads. New development will be planned with respect to future transportation needs.

4. Adequate land shall be reserved for commercial/light manufacturing activities. Commercial uses will be designed and scaled to be compatible with the neighborhood in which it is located.

5. The Town shall give consideration to the historic significance of structures and neighborhoods during the development review process.

6. The Town shall seek to obtain and maintain a physical buffer from the unincorporated areas.

7. The Town shall direct development away from all stream valleys, steep slopes, and natural areas.

8. The Town shall work to provide a buffer around its water resources.

Background

Middletown is located in the western portion of Frederick County. It is a small town in a rural valley setting with outlying picturesque farms and plentiful natural and heritage resources. Major arterials for the region include U.S. Route 40-A and Maryland Route 17. Urban areas near Middletown include Frederick City to the east and the city of Hagerstown to the northwest. These urban areas represent potential places of employment for Town residents, along with Montgomery County and the District of Columbia further to the southeast, and Baltimore further to the east.

Middletown adopted a Policy on Residential Growth for all new residential development, on July 17, 2003, and a Policy on Commercial Growth for all new commercial development on April 6, 2004. The policies have been amended over the years and most recently on January 10, 2022. The growth criteria under these policies include the provision for adequate water and sewer, adequate school capacity, a traffic impact study identifying all traffic issues related to the requested development (and the correction of those issues), usable recreation space, written Public Works

Agreements, a limit on the number of residential permits per calendar year, and the payment of municipal real estate taxes for all properties requesting annexation for commercial development. These policies (attached in Appendix __) have established elements of an adequate public facilities ordinance and have proven to be very effective in the last two decades in controlling growth in the Town of Middletown.

Frederick County Agricultural Land Use Planning - Part 1

Several agricultural preservation easements are currently located south and north of the town. The Haines farm north of the town's growth boundary is under the Maryland Agricultural Land Preservation Foundation (MALPF), as is the Keller Farm southwest of the town's growth boundary. According to Frederick County government's website, the MALPF Program has a purpose of preserving prime farmland for future food and fiber production and is designed to pay farmers to extinguish their development rights, therefore keeping the farm in agricultural use in perpetuity.

Frederick County Agricultural Land Use Planning – Part 2

The Hawker farm south of the Town's growth boundary at Glenbrook is under the County's Installment Purchase Program (IPP). Frederick County began the program in 2002 and it works through installment purchase agreements that pay the farmer tax-free interest over a period of 10-20 years with a balloon lump sum principle payment at the end of the term according to information provided on the County's website.

These agricultural preservation programs have been highly successful in Maryland as well as in Frederick County.

Goal: manage the rate of infill growth to be consistent with the provision of adequate services and infrastructure

TOWN INFILL AND REDEVELOPMENT

Town Infill & Redevelopment Capacity

Residential infill potential examines a theoretical capacity associated with vacant and underutilized land in the Town. Potential yield in Middletown was determined by identifying vacant and underutilized parcels using aerial photography in the Town's GIS system. These sites constitute lots of record and are expected to develop within the planning period from 2022 to 2040.

Infill capacity includes the Caroline's View Apartments property, Memorial Hall apartments and completion of construction at the Franklin Commons townhouse property. Foxfield Section 6, an active-adult residential development, yet to be developed, is also included in this capacity estimate. The estimated total infill and

redevelopment potential for Middletown by 2040 is an additional 202 residential dwelling units (see Table 8-6).

Table 8-6

Approved	Prelim. Plats Development	Units	Population
R-20	Foxfield Section 6 - Active Adult	148	296
Existing Lots of Record			
R-1	204 Lombardy Ct.	1	2.7
R-1	E. Green - adj to Miller Property	1	2.7
R-1	500 East Main Street	1	2.7
R-1	502 East Main Street	1	2.7
R-2	E. Green - behind Williams	1	2.7
R-2	28 Walnut Street	1	2.7
R-2	310 S. Jefferson Street	1	2.7
R-2	312 S. Jefferson Street	1	2.7
R-2	316 S. Jefferson Street	1	2.7
R-3	116 East Main Street	1	2.8
TC	406 West Green Street	2	5.4
Approved Site Plans			
TC	Memorial Hall Apts.	15	42
R-3	Caroline's View Apts.(Horman)	9	25.2
R-3	Franklin Commons Townhouses	18	50.4
	Totals:	**202**	**446.1**

[1] Based on population projections of 2.0 for R-20 active-adult zoning, 2.7 for R1 and R2 zoning, 2.8 for R3 zoning and TC zoning districts.

Assumptions for Town Infill & Redevelopment

Infill and redevelopment capacity within Middletown is based on the following assumptions:

- Infill capacity accounts for new infill development in Middletown, which includes Franklin Commons townhouses and Memorial Hall apartments (presently being developed), the Foxfield Section 6 subdivision (new development), and other infill lots.
- Infill capacity assumes development of the Foxfield Section 6 property based on R-20 active adult cluster development zoning, and development of Franklin Commons, Memorial Hall, and Caroline's View Apartments based on current Town residential zoning (R-3).
- Population estimates assume Middletown's average household size will remain proportionate with the Town's average household size of roughly 2.7 persons per household for the past two decades.

IMPACTS OF TOWN INFILL/REDEVELOPMENT GROWTH

Table 8-7
Impacts of Town Infill/Redevelopment Growth on Public Facilities & Services
Based on Population Projections Through 2040

Classification	Infill/Redevelopment Areas
Dwelling Units	**202**
Population	**446**
New Residential Water/Sewer Demand (gpd)	50,500
New Non-Residential Water/Sewer Demand (gpd)	?
TOTAL New Residential/Non-Residential Water/Sewer Demand (gpd)	50,500+
School (new students)[1]	22-24
- High School	11
- Middle School	5
- Elementary/Primary School	5-7
~~**Library (gfa)**~~	~~335~~
~~**Police (personnel)**~~	~~1~~
Recreation Land (acres)	none
~~**Fire & Rescue**~~	~~-~~
~~- Personnel~~	~~Info still needed~~
~~- Facilities (gfa)~~	~~Info still needed~~

[1] Planned 148-unit active-adult subdivision will not impact schools

Assumptions for Impacts from Infill & Redevelopment Areas

Impacts from Middletown's infill growth utilize the following sources and assumptions:

- Future population and dwelling unit projections from 2022 to 2040, as described in this chapter;
- Middletown growth policies which require developer to provide 250 gallons per day of water and sewer per unit;
- Maryland Department of Planning (MDP) multipliers for recreation land;
- Frederick County Public Schools multiplier for school enrollment;
- Multipliers for Municipal Administrative Space based on current space per thousand people;
- ~~Frederick County Public Library (facility standards);~~
- ~~Frederick County Sheriff's Department (personnel multiplier);~~
- ~~International City Council Management Association (fire personnel multiplier);~~

Implications of Town Infill Growth

The most significant implications of growth (summarized in Table 8-8) are impacts on water and wastewater demand and school facilities.

Public Schools: The impact of Middletown's growth on public school facilities during the planning period (by 2040) is illustrated in Table 8-7: a total of 22-24 new students: 11 primary or elementary school students; 5 middle school students; and 5-7 high school students. Due to the enrollment and capacities report dated December 30, 2021, the school most impacted by enrollment due to infill growth in the Town would be the primary school which is at 97% capacity.

Library: Residents of the Middletown Valley are located within a 6-mile drive of the Middletown branch of the Frederick County Public Libraries, which occupies a total of 2,500 square feet. Currently library facilities will not adequately serve the needs of the projected increase in Middletown's population. However, the County is in the process of constructing a new Middletown public library facility of 15,250 square feet, which is the current standard for the County, to meet the level of service necessary for the Middletown area.

Recreation Land: Between 2020 and 2040, an additional 446 people are projected to be added to the Town from infill development. Based on the State's ratio of 30 acres per every

1,000 people, and the current park acreage in the town (77 acres), Remsberg Park outside of town (88 acres), and including the County Park (78 acres), no additional recreation land will be required in the Town by 2040 to serve additional demand for recreation land as a result of the projected increase in population.

Public Safety: Fire and emergency medical services are provided to Middletown residents through the Middletown Fire and Ambulance Company. Police protection in Middletown is provided by the Frederick County Resident Deputy service.

As illustrated in Table 8-7, police and emergency services will be impacted to a moderate degree as a result of the projected increase in Middletown's population by 2030. Based on industry standards for calculating staffing levels of emergency services personnel, one additional police person will be needed by 2040 to serve the projected increase in population. The additional police person will need to be added through the Frederick County Resident County Deputy Program. ~~Information is still needed for the population increase on fire and ambulance personnel and facilities.~~ Staffing for fire and emergency medical services typically comes from the Middletown Fire and Ambulance Company as a request to the County when the need arises.

Additional Facility Needs: Middletown recognizes that any gain in population will require an equivalent increase in municipal meeting space, Town administrative staff, and municipal services (street repairs, trash collection, etc.). The existing Town Hall is currently adequate to serve the needs for hearing and meeting space. A review of staffing levels for administration should be conducted by the Town annually to determine adequacy. In addition, Middletown should review the need to expand the Public Works department. Expansions of Town staff and municipal services can be made and funded as the population and assessable tax base in the Town expands.

Water and Sewer:

Goal: manage the rate of growth by annexation to be consistent with the provision of adequate services and infrastructure

GROWTH & ANNEXATION AREA PLAN

The Middletown Growth and Annexation Area (Growth Area) has been refined during this comprehensive planning process to reflect new Town goals in relation to annexation, growth, and future development. Therefore, the Growth Area, as defined in the 2010 *Middletown Comprehensive Plan*, has been reduced and altered by eliminating properties to the south and west of the town. See Figure 8-1, Growth Boundary Map, following at end of chapter.

Growth Area Analysis

The total acreage for the Growth Area is roughly 403 acres and contains 21 parcels. As shown on Figure 8-1 Growth Boundary Map, the growth boundary represents the Town's long-range growth expectations. Much of the Growth Area is comprised of larger parcels, and some smaller parcels are already developed.

Property Name	Property Tax ID	County Zoning	Acreage	Floodplain	Infrastructure	Developable Acreage	R-20 Zoning EDU's

Assumptions for the Growth Boundary Area

The Growth Boundary Area analysis for Middletown is based on the following assumptions:

- Growth Boundary Area capacity accounts for potential new development on existing agricultural properties in the Growth Boundary Area, totaling 403~~566~~ acres.
- Build-out capacity for these properties utilizes the MDP methodology, which assumes that 25% of the land will be used for roads, open space, and other uses unrelated to dwelling units or commercial/industrial buildings.
- Growth Boundary Area capacity assumes there will be no building in floodplains.
- Growth Boundary Area capacity assumes a dwelling unit density based on current Town residential R-20 zoning, which requires a minimum lot size of 20,000 square feet.
- The resulting total developable area in the Middletown Growth Boundary Area is approximately 403 acres. This equates to 618~~924~~ dwelling units.
- Small, previously developed lots in the Growth Boundary Area do not have development potential but may require water and sewer service.
- Growth Boundary Area population projections assume Middletown's average household size will remain in proportion with the MDP projected average household size for Frederick County over time.

Annexation of most of the Middletown Growth Area is not anticipated within the planning period from 2022 to 2040. The Middletown Growth Area is approximately 403 acres, and the

hypothetical impacts for the Middletown Growth Area are calculated based on potential additional dwelling units and population. The Growth Area includes a potential total of 618 dwelling units. In addition, population is estimated at 1,668 new Town residents.

Accommodating growth in the Growth Area will require an expansion of school facilities, increases in personnel for police services, and water and sewer demand will increase substantially. Increases might also be needed in personnel for fire and rescue emergency services. Development of the Middletown Growth Area will require new water and wastewater systems.

Table 8-8
Impacts of Middletown Growth on Public Facilities & Services
Growth Area Planning Period - Beyond 2030

Classification	Growth Boundary Area
Dwelling Units	**618**
Population	**1,668**

- Facilities (gfa)	Info still needed

Priority Funding Areas

Middletown has been designated a growth area in Frederick County in The Livable Frederick Master Plan, adopted September 3, 2019. The region surrounding the Town consists of large agricultural parcels and substantial land exists for municipal growth. Ten of the twelve incorporated municipalities in the County as well as fourteen unincorporated communities make up the County's Community Growth Areas which are the County's principal residential, commercial, and business centers. These areas are the best locations for future growth and development. The primary goal of this designation as Community Growth Areas is to encourage development to occur within the designated growth areas while preserving the existing character of the communities and their historic and cultural features.

Middletown has also been designated a "Priority Funding Area" (PFA) for Frederick County in The Livable Frederick Master Plan. (add date reference). The requirement for designating PFAs was established under the 1997 *Neighborhood Conservation and Smart Growth Areas Act* (Smart Growth) and supports the State "Visions" for growth as expressed in the 1992 Planning and Zoning Enabling Act (*Land Use Article of the Annotated Code of Maryland*). PFAs are locally-designated areas targeted for eligible State funding. PFA designations include municipalities, rural villages, communities, industrial areas, and planned growth areas to be served by public water and sewerage.

Maryland's "Smart Growth" legislation

The intent of the State's "Smart Growth" legislation, as well as other recent changes to Maryland laws affecting PFAs, is to marshal the State's financial resources to support growth in existing communities and limit development in agricultural and other resource conservation areas. The designation of new PFAs in the State of Maryland must meet minimum density, water and sewer service and other criteria outlined in the law.

It is important to note that as of October 2006, new municipal annexations seeking PFA designation must be submitted to the Maryland Department of Planning (MDP) for "PFA Certification." According to MDP, County properties annexed into the Town that currently have PFA status, do not retain such status and do not automatically become PFAs if annexed. Annexed properties in Middletown in the last decade include the County Park and the Memar property north of the County Park.

Annexation & Growth Area

Middletown's Growth Area has the potential for approximately 620 dwelling units with an estimated population of 1,668 using the Town's average household size. Additional water and sewer demand associated with this level of growth is 154,500 gallons per day (gpd) respectively (see Table 8-8).

All land within the Middletown Growth Area has a county land use plan designation of Agricultural/Rural or Low Density Residential, which generally indicates that development would be appropriate on those properties within a 20-year timeframe subject to completion of other staging mechanisms (according to Livable Frederick??). The vast majority of residentially designated land with the Growth Boundary is zoned Agricultural on the County's zoning map.

Within the Middletown Growth Area, the annexation process will be the primary staging mechanism used by the Town in relation to its growth. Annexation agreements negotiated between the Town and the petitioner will address development phasing, development limits, and responsibilities for public facilities and transportation improvements.

Middletown's Growth plan acknowledges that these properties may be incorporated into the Town at some future date. In the meantime, the Town would request that the County hold these properties in agriculture zoning, thus limiting the potential for premature, low-density development on well and septic systems. Middletown has several reasons for this position including:

- Protecting Middletown's unique identity by controlling the quality of development occurring around the Town corporate boundaries within the Conservation Boundary;
- Requiring development site design that includes mandatory open space requirements;
- Enabling densities for new development that support Smart Growth if water resources are adequate;
- Requiring appropriate water-saving construction materials for new development to protect water quality;
- Requiring "Best Management Practices" (BMPs) for stormwater management to protect and enhance water quality in potential receiving waters;
- Ensuring appropriate expansion of water and wastewater treatment systems to accommodate new development; and
- Eliminating the potential for future failing septic systems.

Annexation Policies

Annexation of properties located within Middletown's Growth Boundary will be subject to site specific annexation agreements. The following annexation policies will apply to all future annexations:

1. Proposed annexation areas will be economically self-sufficient and will not result in larger municipal expenditures than anticipated revenues, which would indirectly burden existing Town residents with the costs of services or facilities to support the area annexed.
2. The costs of providing roads, utilities, parks, and other community services will be borne by the developer gaining the most value from such facilities through income, profits, or participation.
3. Specific conditions of annexation will be made legally binding in an executed annexation agreement. Such agreements will address, among other things, consistency with the goals, objectives and recommendations contained in the Middletown Comprehensive Plan, planning, zoning, and development expectations, responsibility for appropriate studies, and preliminary agreements concerning responsibilities for the cost of facilities and services provided by the Town.
4. For annexations involving larger parcels of land, the Burgess and Commissioners and/or the Planning Commission may require appropriate impact studies, including a traffic impact study, fiscal impact study and an environmental impact assessment that addresses the potential impacts of the proposed annexation and planned development on the environment of the site and surrounding area.
5. Applicants for annexation shall pay the cost of completing all studies related to expanding capacity in existing public facilities and/or services.
6. Proposed development must provide 250 gallons of allocable water per unit, and may be required to cover all costs of physical connection to the Town water and sewer system.

Annexation Policies cont.

7. Proposed development must use the Maryland Department of the Environment (MDE) Water Balance calculations to determine the maximum number of EDU's possible for the property to be developed. No use of other aquifers is permitted.
8. Proposed development must pay a proportionate share of cost to upgrade/increase sewer capacity, based on all factors at time of Water/Sewer certification.
9. Prior to Preliminary Plat approval, all Middletown schools located within the corporate limits of Middletown must be less than 105% capacity as rated at the time of the most recently submitted Frederick County Public Schools Quarterly Enrollment report, and approval will only be valid for two years after the Plat is signed by the Middletown Planning Commission.
10. Proposed residential development must provide usable recreation space, as determined by the Town's Planning Commission, at 0.05 acres/unit for the total number of units in the development.
11. Proposed residential developments will receive no more than 20 residential permits per year. However, the Town shall not approve more than 30 residential permits per calendar year for all residential development within the Town, and all residential permit allocations for each residential development will be determined by the Town.
12. Proposed commercial development may receive Plan approval from the Town for uses creating a trip generation rating at or above level D as defined in the most recent edition of the Highway Capacity Manual.
13. Proposed commercial development must provide usable contiguous recreation space, as determined by the Planning Commission, as 0.2 acres/gross acreage, which may not be allowed to include required setback, Forest Conservation areas, stormwater management areas, or buffer areas.
14. All property requesting annexation for commercial development shall pay municipal real estate taxes at time of annexation.

Prior to annexing any land area not included in the Growth Boundary Plan, the Town will first consider appropriate amendments to this Comprehensive Plan and will follow the procedural requirements for comprehensive plan amendments and annexation established in State law (Land Use Article and Article 23A). This will ensure that the proposed annexation is consistent with the goals and objectives of this comprehensive plan, that appropriate consideration has been given to the adequacy of public facilities and services, and that County and State agencies are afforded an opportunity to comment on the proceedings.

The Middletown Comprehensive 20-Year Land Use Plan, (Figure 8-6).

The Land Use Plan is a set of proposals including objectives, map designations and suggestions for the Town to enact regulating changes. Also included is a proposal for a comprehensive zoning map which will implement the proposals in the Comprehensive Plan.

The Land Use Plan Concept

The overriding concepts behind the Middletown Comprehensive Plan are: for the Town of Middletown to be the focus for the development which takes place in the Region; and, that Middletown remains an identifiable and distinct community. This Municipal Plan coincides with the Frederick County Comprehensive Plan's "Community Growth Area". This concept prescribes that development should be located in and around the existing communities where public facilities and services are in place to efficiently serve new development, and where these communities already have a sense of identity and community focus. Middletown realizes its importance to the Middletown Planning Region and shares the responsibility for growth management in the Region. It is the intent of this Plan that all new major growth in the vicinity of the Town will first be considered for annexation in cooperation with the Frederick County Council.

To this end, the Town has adopted a growth boundary that includes lands outside the Town boundaries which shall be considered for annexation. It is the intent of the Plan that all properties located within the growth boundary are to develop according to the needs and

timing of the Town. It is also the intent of the Plan that properties beyond the growth boundary are not to be developed for new residential, commercial or industrial use except as permitted by existing County zoning. Any rezonings or water and sewer changes outside the corporate limits should be done in full cooperation with the Town.

The ultimate growth limits for the Town of Middletown as defined by this Plan include the Town boundaries to extend ~~ultimately west to Catoctin Creek, generally south along Hollow Creek,~~ east towards Hollow Road and north to those properties which would include a potential northern parkway or collector. These growth limits are intended to be a limit to the eventual expansion of the Town boundaries. Properties within this growth boundary are not necessarily appropriate for annexation or development within 5 or even 20 years but will be appropriate for development as facilities and services are in place to serve this area. Of prime importance is that major new areas will not be added to the Town ahead of a road system to support the development. New annexations will not be encouraged which will increase the congestion in downtown Middletown. It is envisioned that new annexations will occur from east to west in order for the roads to be built which will carry traffic to Frederick and Interstate 70 to the east. (???)

Middletown desires to remain as a distinct community. In order to ensure this, the Plan proposes a greenbelt or conservation boundary around the growth boundary. The Town's definition for its conservation boundary as shown on Figures 8-1 and 8-6 is: a greenbelt around the designated growth area that defines the community and maintains its rural character and limits its growth. All new development will be required through the subdivision review process or annexation process to reserve or dedicate lands for open space. The other intent of the greenbelt is to look at the ability to secure water recharge easements on properties in the greenbelt which are under agricultural preservation easements.

Plan Designations

Plan designations are the proposed land use categories for use by the Town. Plan designations are not specific zoning classifications which include specific zoning regulations but are guides as to future land uses. In some cases, the zoning and plan designations will correspond but in other cases, the zoning envisioned by the plan designation is not applied until other factors such as community facilities and roads are in place. The proposed zoning changes are designated in Figure 8-7, Proposed Zoning Map. As shown in the text box above the legend on the map, there are two properties in the Town of Middletown that zoning changes are proposed for. More specific information regarding these changes is referred to in the text below.

Residential

The predominate Land Use Plan category is Medium Density Residential. The density of development in the Medium Density Residential areas is approximately 4-7 dwelling units per acre. The compatible zoning categories for the Medium Density Residential designation are R-1 Residential with a minimum lot size of 10,000 sq.ft, and R-2 Residential with a minimum lot size of 6,000 sq. ft. Medium Density Residential areas include the subdivisions of Glenbrook, Brookridge South, North Pointe, portions of Cone Branch Estates and Foxfield, and the older neighborhoods within the Town.

High Density Residential which has a maximum density of 6 - 11 units per acre is designated for most of those areas in the middle of Town which have R-3 Residential zoning. High Density Residential is designated for the Jefferson Village, Chesterbrook Apartments and the adjacent Franklin Commons development. Other neighborhoods designated as High Density Residential are the townhouse area of the Glenbrook subdivision and the western third of the recent Middletown Glen subdivision.

A Low-Density zoning district was created in 1988 in order to give the Town more of a transition from the rural densities found outside of town with the more concentrated

development densities in Town. The corresponding zoning classification for the Low-Density Residential Plan category is the R-20 Residential zone with an average minimum lot size of 20,000 sq.ft. This is to be located on most of the land within the unincorporated growth boundary. Development in the Low-Density Residential area is proposed at approximately two dwelling units per acre, but may include increased levels of density through flexible design of subdivisions that minimize the impact on municipal resources, such as cluster developments. Portions of the Foxfield and Cone Branch subdivisions are zoned R-20.

The Neo-Traditional Residential overlay zoning district was created in 2008 which is intended to permit planned development in the R-3 zoning district. This zoning district was applied to two-thirds of the Middletown Glen subdivision on the north side of Green Street adjacent to the school complex.

Commercial:

Commercial land uses in Middletown are in the General Commercial (GC), the Town Commercial (TC), and the Service Commercial/Light Manufacturing districts. Regardless of which district commercial development is located in, the commercial businesses are expected to be of a size and scale that fits in with the existing commercial establishments and the historical context of the Town. Commercial businesses in the TC district are dependent on the character of the older development and restricted parking that is generally available in these areas of Town. The GC businesses are also dependent on the character of the portion of Town in which they are located; however more flexibility is available due to the various locations of the GC districts in town. One GC district is located in the older area of Middletown and has many of the limitations generally associated with the TC, while other GC districts are located in newer areas of Town without the restrictions of existing historic development. The SC/LM district is intended to provide areas for business services, light manufacturing, and commercial uses that are relatively nuisance free and compatible with surrounding residential and commercial uses. Commercial development in Middletown is

therefore influenced by both the characteristics of the area in which it is to be located as well as by the standards adopted for the district in the Middletown Zoning Ordinance.

Factors such as the location of the commercial development in relation to surrounding uses and the standards for the various commercial zoning districts in the Town ordinance should be considered during future annexations and rezoning requests as the Town addresses the need for additional commercial zoned acreage within the Town to meet the consumer needs of the growing municipal population.

Mixed Business District

A commercial zoning district was established in 2004in the Town's zoning ordinance called the MB - Mixed Business District. The Mixed Business district is intended to provide a park-like setting for a community of small to medium sized businesses on a planned tract of land. Unlike the other commercial zoning districts, this district includes more specific performance standards that must be adhered to in the zoning ordinance. This zoning district is not yet reflected on the zoning map of the Town.

General Commercial (GC) District: This commercial zoning district is defined in the Middletown Zoning Ordinance as intended to provide areas for general commercial activities that service the needs of the entire community and the surrounding area. It also states that such areas should be located such that stores and commercial activities can be grouped together in an attractive and convenient manner that will not infringe on residential areas. This district is also required to be on major thoroughfares in order to provide for vehicular accessibility. In keeping with these requirements, Middletown has five GC zoned areas in town. (1) One located in the center of Town, extending from the Main Street/Church Street intersection northward on the east side of North Church Street. (2) GC also includes the Town Center Shopping Center on East Main Street and the adjacent Hollow Creek

Professional Center proposed property, (3) and includes the golf course restaurant and Pro Shop in the Glenbrook development that is located off the Middletown Parkway along with the Cross Stone Commons Shopping Center.

Town Commercial (TC) District: This commercial zoning district is defined in the Middletown Zoning Ordinance as intended to provide areas that allow for a mixture of uses including residential and small commercial businesses that can meet performance standards that allow for compatibility with the surrounding residential environment. The TC is intended for small attractive commercial uses that cater primarily to pedestrian traffic, allowing for limited parking and minor road (street) access. The uses allowed in this district are generally of a less intense and smaller scale than the commercial uses found in the GC district. The TC zoned areas are located in three general locations in Middletown. (1) The largest TC zoned area is located in the older (center) portion of Town along West Main Street; part of this area includes properties on the north side of Washington Street between South Church Street and Elm Street, and also includes some properties on the south side of the intersection of East Main Street and South Church Street. (2) Another TC zoned area is located on South Church Street and south of Boileau Street (Alley) and includes a few properties fronting on Jefferson Street near Boileau Street. (3) The TC district also includes two parcels on the north side of East Main Street – the Miller property and the gas station next to it.

Properties zoned for light manufacturing uses in Middletown are in the Service Commercial/Light Manufacturing (SC/LM) District. This district is intended to provide areas for business services, light manufacturing, and commercial uses that are relatively nuisance free and compatible with surrounding residential and commercial uses. The uses permitted in this district have low traffic generation, limited noise and environmental impacts, and includes development scaled to serve local patrons. These areas must have access to a major road as identified in this Comprehensive Plan. Historically, this area has included warehouses and offices with some retail uses. There is one area designated in this Plan for manufacturing use; this is the SC/LM zoned area east of North Church Street and north of East Green Street.

Mixed Business (MB) District: As stated previously, there currently are no areas in Town designated in this zoning district. This district is intended for "showcase locations" which are planned, promoted and developed for businesses in a park-like setting.

Open Space:

Properties designated as Open Space are zoned in the Open Space District (OS) and are intended primarily for providing permanent open space for its natural beauty and recreational value, particularly for use as parks. It is also available for limited development for use by essential public services such as schools, medical centers, fire protection services and the like. Areas designated as Open Space are located throughout Middletown including town parks, cemeteries, stream valleys and some essential public service facilities. Development is by definition very restricted in the OS zone.

Institutional:

Institutional properties in the Town of Middletown include schools, wastewater treatment facilities, water treatment facilities and cemeteries. There is no zoning district entitled institutional, therefore these land uses typically use the Open Space zoning district for zoning purposes.

Other Land Use Implementation Recommendations: In addition to the Comprehensive Plan Land Use designations, it is proposed that the following actions be taken:

1. Limited Comprehensive Zoning - The Middletown zoning map is being amended in conjunction with the comprehensive plan update.
2. Consider Potential Low-Impact Development Options - New techniques for land development will be analyzed. In addition, techniques for preserving surrounding agricultural lands will be considered.
3. Evaluation of Development Review Process - The steps involved in development review for site plan, subdivision, annexations, rezonings, and Board of Appeals cases will be reviewed to eliminate unnecessary delays and to streamline the process.
4. Wellhead Protection – Although Frederick County has a Wellhead Protection Ordinance, steps will be taken to attempt to encourage the County Council to further strengthen that Ordinance.

INTRODUCTION

The 2021 Planning Report for the Town of Middletown, Maryland was prepared pursuant to the requirements of the Land Use Article of the Annotated Code of Maryland. This report provides a summary of the year's planning activities undertaken by the Planning Commission, Board of Appeals and staff, and also documents development activity.

Section 1-207 of the Land Use Article of the Annotated Code of Maryland requires that the Planning Commissions of non-charter counties and municipalities prepare, adopt and file an annual report with the local legislative body and a copy of the report be mailed to the Director of the Maryland Department of Planning. The report is a retrospective look at development activity within the jurisdiction with a focus on whether that activity is or is not consistent with a variety of adopted plans. The report thus informs both the Planning Commission and local legislative body about the strengths and weaknesses of the local planning program.

POPULATION IN MIDDLETOWN

YEAR	POPULATION	INCREASE OR DECREASE
1970 Census	1,262	N/A
1980 Census	1,748	486
1990 Census	1,834	86
2000 Census	2,668	834
2010 Census	4,136	1468
2020 Census	**4,943**	**807**

MIDDLETOWN PLANNING COMMISSION

The Middletown Planning Commission is a five-member commission with two alternates, which has review and approval authority of site plans and subdivisions. In addition, the Planning Commission makes recommendations to the Burgess and Commissioners on rezoning and annexations, and reviews and comments on text amendments and any other issue, which is planning related. The Middletown Planning Commission also makes recommendations to the Middletown Board of Appeals on cases involving special exceptions.

PLAN REVIEWS - 2021

All plans reviewed and approved were consistent with the Middletown Comprehensive Plan adopted in 2010, the Middletown Zoning Code, and the Middletown Subdivision Regulations. **(Plan and plat names are shown on attached map.)**

CONCEPT PLANS

Name	Units	Zoning	Request for:

None

SITE PLANS

Name	Units	Zoning	Request for:
1. Middletown Library 31 East Green Street	1	NTR	Approval of plan for new library building (Approved 3/15)
2. Hollow Creek Prof. Center 821 East Main Street	2	GC	Approval of redline plans for office building and pad site (Approved 6/21)

PRELIMINARY PLANS

Name	Units	Zoning	Request for:
3. Foxfield Section 6 off Coblentz Road	148	R-20	Approval of active-adult cluster development (Approved 1/19)

IMPROVEMENT PLANS

Name	Units	Zoning	Request for:
4. Middletown Library 31 East Green Street	1	NTR	Approval of new library building plans (Approved 11/15)

FOREST CONSERVATION PLANS

Name	Units	Zoning	Request for:
5. Foxfield Section 6 off Coblentz Road	148	R-20	Approval of Preliminary Forest Conservation Plan for active-adult development (Approved 1/19)
6. Hollow Creek Prof. Center 821 East Main Street	2	GC	Approval of Final Forest Conservation Plan for commercial development site (Approved 1/19)
7. Water Storage Tank 4A Ashky Court	1	OS	Approval of Final Forest Conservation Redline Plan for water storage tank (Approved 2/15)

SUBDIVISION PLATS

Name	Units	Zoning	Request for:
8. Middletown Library 31 East Green Street	2	NTR	Approval of subdivision of library parcel into two two parcels (Approved 12/20)

ADDITION PLATS

Name	Units	Zoning	Request for:
9. Newton 800 East Main Street	2	R-1	Approval of addition to adjoining parcel from Newton parcel (Approved 6/21)

FINAL PLATS

Name	Units	Zoning	Request for:

None

RE-ZONING REQUESTS:

None

ANNEXATIONS:

AC Jets Property Alternate 40A	144 acres	R-20	Recommendation of approval to annex property into town boundaries (9/20) (petition subsequently withdrawn)

TEXT AMENDMENTS:

Text Amendments commented on to Burgess & Commissioners for adoption. (Municipal Code #)

Sunset provisions text amendment – Planning Commission reviewed and commented on adoption of revisions to establish the automatic expiration of all site plan and improvement plan approvals. (Sections 16.12.060 and 17.32.250) [PC commented 2/15; B&C adopted 4/812]

BOARD OF APPEALS: (Applicant names are shown on attached map)

Applicant	Request	Location	Motion	Date
A. Elkana Bar-Eitan	variance from setbacks for detached restaurant	123 W. Main	Denied	1/26
B. Lancaster	special exception request for Self-storage facility	behind and east of Safeway	Approved	4/27
C. Putnam Homes	variance from lot width for single-family dwelling	114 E. Main	Approved	4/27
D. Lancaster	variance of 6′6″ for height of building	east of Safeway	Approved	6/30
E. Maiello	variance of 4′ from side yard for deck extension	119 Prospect St.	Approved	7/21
F. Canty	variance of size limit for accessory structure	19 E. Main	Approved	7/21
G. Holliday	variance of 20′ from front yard setback for a garage	98 Summers Dr.	Approved	8/31
H. Nalborczyk	variance of 4′ from side yard setback for an addition	7 Washington St.	Approved	8/31

INFRASTRUCTURE:

TRANSPORTATION:

Action taken by the Town in the year 2021 has been consistent with the Town Comprehensive Plan and best management planning practices.

The Town Comprehensive Plan includes roadway alignments both north and south of town that will be requirements of any future annexation agreements. It states that future development should incorporate roadway dedication and construction to provide minimum collector type road links from east to west. With the development of Foxfield Section 6, a section of northern alignment, west of Coblentz Road, will be built by the developer.

Reconstruction of Board Street began in 2021 and is continuing thru the first part of 2022. The scope of work includes the replacement of waterlines, stormwater management facilities and the replacement or installation of curb, gutter and sidewalks. The project also includes the planting of new trees to replace trees that needed to be removed due to utility work.

WATER SUPPLY AND DISTRIBUTION: THIS NEEDS TO BE UPDATED

The Town depends on 23 wells, 4 major groups of springs, a ground storage tank, and a 400,000-gallon elevated water storage tank to supply water to the Town. The current total withdrawal permitted by MDE is 387,000 gallons per day (gpd). The average daily use for 2020 was 299,667 gpd. The water system is routinely monitored for possible contaminants in accordance with Federal and State laws, and there were no violation levels in 2020. Construction began in 2020 of a stadium style ground storage tank to replace an existing reservoir and was substantially completed on April 26, 2021. In addition, the project removed the abandoned 6" suction water line from the reservoir to the booster station and replaced it with a 16" suction supply line to the Town. This provides the Town with dual suction lines for water supply to the Town. The water mains along Main Street from Coblentz Road to Eastern Circle were replaced during the SHA Main Street streetscape project which was substantially completed in November 2020. As can be seen in the chart below, the Town's water supply system has adequate reserve with a 9% margin to meet all currently approved development.

Middletown Water Capacity Calculations

	ANNUAL AVG (gallons/day)	MAX MONTH (gallons/day)
Annual Appropriation Permit Limit[1]	387,000	504,000
Current Water Demand (3-yr avg)[2]	306,833	392,747
Reserve Capacity[3]	39,649	51,728
Total Demand Use	92%	91%
Available System Capacity	28,832[4]	44,618[5]

[1] Hollow Creek, Catoctin Creek and Cone Branch Watersheds
[2] 2018 -2020
[3] Calculated (10% reserve + expected future demand)
[4] (250 gallons/day use = 119 Equivalent Dwelling Units)
[5] (325 gallons/day use = 137 Equivalent Dwelling Units)

WASTEWATER TREATMENT FACILITIES:

The East Wastewater Treatment Plant (WWTP) on the south side of Holter Road at Hollow Creek has a discharge permit for 250,000 gallons per day (gpd). The Town has requested from the Maryland Department of the Environment an increase in our permit capacity to its full design capacity of 350,000 gpd. The discharge permit for the West WWTP at Catoctin Creek in the southwest section of Town is 250,000 gpd.

Middletown Wastewater Capacity Calculations

	East WWTP (gallons/day)	West WWTP (gallons/day)
Annual Permit Limit	250,000	250,000
Current Sewer Demand (3-yr avg)[1]	267,000	301,000
Percent Capacity	106.8%	120.32%

[1] 2018 -2020

Combined Capacity[2]	
Design capacity	500,000gpd
3-year average demand	567,473gpd
Percent capacity	113.5%

[2] Cone Branch Pump Station can send flows to either plant

In addition to asking for an increase in the permit at the East WWTP to the full design capacity, the Town is currently conducting an I&I Study to make recommendations on repairs and improvements. This I&I work is expected to substantially increase sewer capacity. The Planning Commission will limit the number of approved subdivision lots to stay within the Town's permit capacity until the completion of the I&I Improvements are made, and an increase in the permit capacity is approved.

PARKS AND GREENWAYS:

Parks and greenways projects that were completed in 2021 included the installation of twelve memorial benches along walking trails and the establishment of the Willow Street Pocket Park which is 85% complete.

PROTECTION OF HISTORIC STRUCTURES:

The Town regulations regarding the demolition of buildings are a zoning control (Section 17.32.160, Zoning, Middletown Municipal Code), which requires a Demolition Permit. This permit allows a building to be inventoried prior to the demolition but does not prohibit demolition. Photos are taken before historic buildings are to be torn down and are archived.

The Town has two historic districts that are listed in the National Register of Historic Places. Properties that are listed as "Contributing" to the significance of the historic districts may voluntarily participate in government programs that provide financial benefits to property owners who undertake maintenance projects that comply with the Secretary of the Interior's Standards for Rehabilitation. In order to provide a certain level of customer service to property owners in Middletown, the Town

established a Historic Commission to act as a conduit between the property owner and the available programs. The Historic Commission only meets when a property owner wishes to take advantage of these specific programs.

Main Street Middletown began the year of 2021 with the receipt of approximately $215,000 in grant funds to distribute 85% of those funds directly to Main Street businesses impacted by COVID-19. The remainder of the funds were used for marketing the downtown district in various media outlets.

Work began in the spring of 2021 at 19 West Main Street (the Main Street Middletown office and Welcome Center) with the lifting of the building in order to completely create a new foundation. All work on this property is coordinated with the Maryland Historical Trust in compliance with their preservation easement that requires the work to meet the requirements of the Secretary of the Interior's Standards for the Rehabilitation of Historic Properties. Once that work was completed, Main Street Middletown, MD Inc. received $44,000 from the Maryland Heritage Area Authority and in December 2021, they were awarded $170,000 from the Department of Housing and Community Development to complete the rehabilitation work.

Another notable historic preservation project that began 2021 was the rehabilitation of 4 East Main Street, the historic Memorial Hall building. This work included the demolition of the rear of the structure for a four-story addition with a parking garage on the lowest level and apartments on the other three floors, and a complete upgrade of the interior spaces for two ground level commercial tenants and 3 apartments. Main Street Middletown continued the Façade Improvement Program with $50,000 in grant money going towards the rehabilitation of the front façade of Memorial Hall and in December 2021, Main Street Middletown secured another $50,000 in grant funds to assist in that effort.

Main Street Middletown, MD Inc, and the Town of Middletown were awarded a Special Recognition Award from the Maryland Economic Development Association for the recent influx of new businesses, private development money, and the creation of the Downtown Revitalization Zone to encourage downtown investment. This spurred the Maryland Department of Planning to write a full review of the changes made to the Main Street District over the last ten years, spotlighting all of the achievements made by Main Street Middletown and the Town and publicized this article in their monthly e-newsletter.

STRATEGIC PLANNING INITIATIVES

ZONING ORDINANCE UPDATE

No updates to the Zoning Code were completed in 2021 aside from the text amendment listed above.

COMPREHENSIVE PLAN REVIEW

The update to the Town's Comprehensive Plan began virtually in 2020 due to the pandemic. The Town hopes to have an approved Plan by late spring of 2022 once the 2020 Census data becomes available. The Maryland Department of Planning now requires a ten-year review.

PLANNING COMMISSION RECOMMENDATIONS:

ONGOING RECOMMENDATIONS:

1. Review walkway and road construction strategies to be incorporated into current & future growth and development.

2. Continue to review and refine a management system which includes checklists for the plan review process to help ensure that files are complete and easily accessible, and which verifies that all agency approvals are in place.

3. Continue review of zoning ordinances as needed to ensure compatibility with the comprehensive plan.

4. Promote and develop a trails system as shown in the Comprehensive Plan by working with the Town Board, citizens and community groups.

5. Work closely with the Main Street Program to help revitalize downtown Middletown.

6. Promote sustainable development practices thru the development review process as outlined in the 2010 Middletown Comprehensive Plan, along with potential projects to consider for any applicable funding associated with the Sustainable Communities designation through DHCD.

NEW RECOMMENDATIONS:

1. Work with the Sustainability Committee on implementing energy-saving and renewable energy strategies and policies for the town.

2. Review policies that would provide guidance for sustainability and climate change resiliency as it effects the town and future annexations.

3. Develop a dark-sky policy for future and replacement lighting in the town.

4. Review and develop policies/regulations that would provide guidance for affordable housing and senior care centers.

5. Develop policies and design guidelines for review of architectural plans and for site plan reviews.

6. Work with Cable Committee to recommend locations for 5G antennas with input from Radio-Frequency engineers.

Middletown 2021 Annual Report Map

Town of Middletown Planning Department

To: Burgess & Commissioners and Middletown Planning Commission

From: Cindy Unangst, Staff Planner

Date: 2/11/2022

RE: Monthly Planning Update – February

Major Subdivisions:

Foxfield Section 6 (Coblentz Road) – Board of Appeals approved special exception use – **August 31, 2020**
Forest Stand Delineation conditionally approved – December 21, 2020 (expires 12/21/2025)
Preliminary Forest Conservation Plan approved – January 19, 2021
Preliminary plat approved by PC – January 19, 2021 (expires January 19, 2024)
Improvement plans being reviewed by Town Staff ahead of submittal to PC
Next steps – submittal of Improvement plans for PC review

Site Plans, Plats and Minor Subdivisions:

Caroline's View/Horman Apartments (East Green Street)- Site Plan approved – April 21, 2008
Improvement Plans conditionally approved – May 17, 2010
Revised Improvement Plan mylars signed – July 21, 2017
(new sunset provisions put in place on May 2, 2021 – plans expire May 2, 2024)
Next steps – submittal of LOCS/PWAs for approval and apply for building & grading permits

Cross Stone Commons (Middletown Parkway) – Revised Site Plan conditionally approved – 10/20/14
Improvement Plan mylars signed – November 6, 2015
Next step – submittal of architectural renderings for building #2 for review/approval

Hollow Creek Professional Center (Alt. 40A)
Board of Appeals approved self-storage use – April 27, 2021 (Expires April 27, 2022)
FRO plantings completed – March 23, 2021
Redline Site Plan conditionally approved by PC – June 21, 2021 (Plans expire June 21, 2024)
Revised architectural renderings approved by PC – July 19, 2021
Next steps – submittal of improvement plans for PC review

Franklin Commons (Franklin Street) -
Improvement plans conditionally re-approved – March 18, 2019 (Plans expire March 18, 2022)
Redline drawings conditionally approved by PC – November 16, 2020

Jiffas (Summers Drive) – Forest Conservation Plan approved & Improvement Plan conditionally approved for commercial use – October 20, 2008 (new sunset provisions put in place on May 2, 2021 – plans expire May 2, 2024)
Architectural plans approved by PC for duplex – March 16, 2015
BOA approval for variance requests for duplex – March 29, 2016 (**Expired March 29, 2017**)
Next step – apply for variance requests for siting of duplex building

Memorial Hall Redevelopment Plan (E. Main St)– conditionally approved by PC – December 21, 2020 (expires December 21, 2023)
Lighting plan approved by PC – January 18, 2022

Middletown County Park (Coblentz Road) – FSD and FCP approved – Feb. 17, 2020 (expires 2/17/25)

Middletown Library (E. Green Street) –Revised Concept plan reviewed – December 21, 2020
Site Plan and Architectural Renderings approved by PC – March 15, 2021(expires March 15, 2024)
Lighting Plan approved by PC – April 19, 2021
Improvement plans approved – November 15, 2021
Subdivision plat approved – December 20, 2021
Next step – submittal of LOCS/PWAs for approval and apply for building & grading permits

Middletown Water Storage Tank (Ashky Ct.) – FRO plantings completed – May 18, 2021

Miller Property (East Main Street) –
Phase III Redline Site & Improvement Plans conditionally approved – Sept. 16, 2019
Next step – submittal of Phase IV site plan for review and approval

Oak and Steel – change of use plan approved by PC – January 18, 2022

St. Thomas More Academy Site Plan revision (Prospect St) –
Revised site plan approved – September 21, 2020 (Expires September 21, 2023)
Revised site plan to be revisited in five years – September 2025

Annexations:

Admar Property – PC approval of consistency with zoning/comp plan – February 20, 2017
Town Board passed annexation resolution – April 9, 2018 - **Five-year wait for lot recordation**

Text Amendments: **Revised sign regulations – Cindy working on this with town attorney**
Parking of inoperable/untagged vehicles – draft ord. before Town Board for review
Fence regulations – draft ordinance before Town Board for review

Reports: **Bee City USA annual report due February 28, 2022**

Grants: **Keep Maryland Beautiful grant application submitted November 13, 2021**
Maryland Urban & Community Forestry Committee grant application due Feb. 15th

Meetings: **Next Middletown Green Team Meeting – February 15, 2022**

Next Joint town board/planning commission workshop – Monday, March 7, 2022?

Sustainability Committee upcoming dates:
Green Expo – Saturday, April 23, 2022, 10am – 2pm – Memorial Park
Tree planting event – Friday, April 29, 2022, am

Middletown

MEMORANDUM

To: Cindy Unangst, Town Planner

From: Mark Hinkle, Middletown Zoning Administrator

Date: February 7, 2022

RE: Change of tenant 205 S. Church St.

A Change of Owner/Tenant permit was received and a Zoning Certificate was issued/approved on February 7, 2022 for occupancy by NovaCare Rehabilitation. The leased space will be used for physical therapy.

The number of parking spaces needed for this business is minimal and all parking needed to support this business can be satisfied on site. There are no interior or exterior structural changes required to support the new tenant. The intensity of use is determined to be the same as the previous Physical Therapy business, so it was determined that a site plan approval by the Planning Commission is not required. The building meets all existing regulations for the Town Commercial district in which it is located. The building or use has not been grandfathered.

The owner is aware that any future changes will need approval by the Zoning Administrator and possibly the Planning Commission.

Middletown

Town of Middletown
Zoning Administrator Monthly Staff Report

To: Burgess and Commissioners

From: Mark Hinkle, Zoning Administrator

Date: January 31, 2022

RE: Monthly Zoning Administrator Staff Report for January 2022

BOA Hearings: None

Storage Container & Dumpster Permit: None

Home Occupation Permit: None

Zoning Violations and Complaints:

- 1/14/2019 – 819 East Main Street, BB &T bank – Complaint received about unscreened dumpster, investigated, and sent letter. Spoke with branch manager and agreed to allow them an extra 30 days so they can deal with their headquarters in North Carolina. The dumpster became obvious once the property next to them was cleared. Spoke with construction company and advised them what would be needed to be properly screened. ***Plan being submitted to headquarters in North Carolina to correct issue. On hold due to Parking lot realignment efforts. Spoke with facilities maintenance 10/7/2019 and they are waiting on a decision on the lot realignment before moving forward. 5/31/21 BBT will be updating their signage to Truist.***
- 9/29/2021 – 105 S. Jefferson St. – Untagged/inoperable car in driveway. Town code does allow "the parking and storage of not more than one unregistered or inoperative motor vehicle is permitted provided that such a vehicle is effectively screened from adjoining properties.". Town Code defines screening as "the use of fencing, walls, vegetation or berms to shield or obscure an object or use from view from adjoining and nearby properties." It is screened as effectively as possible from the neighbors since the

homes sit very close to the road. The car is enveloped between two houses and shrubbery/tree.

Miscellaneous:

- Working with owner of Church St. Business Ctr. regarding a change of tenant/owner of physical therapy office.
- Working with tenant at 1 W. Main regarding signage
- 114 E. Main St., questions regarding setbacks for side yard.
- Completed year end zoning/permitting report
